PROFESSIONAL SUMMARY

Results-driven Technical Lead and Fullstack Architect with extensive experience leading cross-functional engineering teams and delivering enterprise-grade B2B SaaS platforms and multi-client web ecosystems. Proven track record of spearheading digital initiatives, managing end-to-end development lifecycles (React/Next.js, Node.js, Go, Laravel), and orchestrating scalable containerized infrastructure (Docker, Nginx, Microservices/API Gateway). Adept at aligning high-level business strategy with robust, secure, and high-performance software delivery.

WORK EXPERIENCE

DULUIN GROUP | Lead IT – UI/UX, Web Dev & New Initiative

Bandung | Apr 2025 – Present

- **Strategic Technical Leadership:** Head the UI/UX, Web Development, and New Initiative division, driving the technical roadmap, architectural governance, and execution of company-wide digital ventures.
- **Enterprise HRIS Ecosystem (Workin' by Duluin):** Architected and led the full-cycle engineering of a multi-tenant HRIS platform featuring automated Payroll processing, Claim workflows, Attendance Tracking, Employee Lifecycle Management, and multi-tier approval mechanisms.
- **SaaS & API Integration (Markin' by Duluin):** Designed system topology and deployed a certified digital signature SaaS platform; integrated external signing APIs, implemented secure token validation, and established automated Docker/Nginx deployment pipelines.
- **Microservices & Gateway Optimization:** Refactored internal API routing using Fastify Gateway and customized reverse proxy rules to streamline high-throughput microservice communications and optimize data forwarding latency.
- **DevOps & Standards Compliance:** Enforced containerized development environments, CI/CD routines, and secure coding practices aligned with corporate ISO and data security standards.

SATU DIGITAL CREATIVE (Subsidiaries of Duluin Group) | Lead IT / Head of IT

Bandung | Apr 2025 – Present

- **Agency Tech Operations & Team Leadership:** Direct the engineering team in designing, developing, and deploying client digital solutions across diverse industries (logistics, security, manufacturing, automotive, healthcare, corporate).
- **Multi-Client Web Ecosystem Delivery:** Successfully managed and delivered 20+ bespoke client web platforms and CMS dashboards, including SKI One Service (PT Surat Kilat Indonesia), PT Noreen Surya Perdana, PT Transgo Mobility, PT Riline Velocity Express, PT Satria Enam Putra Perkasa, Coway IDN, GKI Cikarang, and BNI Ventures.
- **Infrastructure & Domain Lifecycle Management:** Supervised complete infrastructure operations, DNS routing, server provisioning (VPS/Cloud), SSL certificate lifecycles, and domain health monitoring for all managed client properties.
- **Performance & SEO Architecture:** Standardized modern frontend frameworks (Next.js, Vue, Tailwind CSS) to guarantee sub-second load times, dynamic CMS responsiveness, and optimal SEO scoring for client brands.

PT. TELKOM INDONESIA | Frontend Developer (Contract)

Bandung | Aug 2023 – Aug 2024

- **Partnership Ecosystem Dashboard:** Engineered and maintained mission-critical frontend modules for Telkom's Partnership Support Application using React.js and modern state management libraries.
- **UI/UX & Performance Optimization:** Overhauled dashboard workflows and data-grid components, significantly reducing page render times and improving overall administrative operational efficiency.
- **Component-Driven Architecture:** Collaborated with UI/UX and backend engineers to implement reusable UI component libraries using React.js and Bootstrap, ensuring high UI consistency across micro-frontends.

PT. QUANTUS TELEMATIKA INDONESIA | Frontend

Bandung | Aug 2021 – Jan 2023

Developer (Full Time)

- **Public Sector & Enterprise Consulting:** Developed and delivered customized web applications and interactive analytics dashboards for government agencies and enterprise clients.
- **Modern Stack Implementation:** Built high-performance, reactive user interfaces utilizing React, Next.js, Solid.js, and Kotlin for frontend/cross-platform client requirements.

- **Client Feature Delivery:** Actively engaged in technical requirement gathering, rapid prototyping, and bug triage to ensure SLA fulfillment across multiple concurrent projects.

FEATURED PROJECTS & PORTFOLIO HIGHLIGHTS

- **SATU Creative Client Platform Suite (20+ Corporate Deployments):** Led end-to-end technical delivery of corporate landing pages, portals, and interactive CMS dashboards for enterprise clients (SKI One Service, Noreen SP, Sentro Care, Riline Group, JGR Garmen, Elang Security Nusantara, Transgo Group, Coway IDN).
- **Workin' by Duluin (Enterprise HRIS SaaS):** Fullstack architecture (React/Next.js, Node.js/Express, Go, Laravel, MySQL/Sequelize, Docker) featuring automated payroll calculations, granular RBAC permissions, claim approval engine, and attendance logging.
- **Markin' by Duluin (Digital Document Signing Platform):** Engineered multi-party signature workflows, digital certificate integrity verification, external e-sign API integrations, and containerized deployment pipelines (Next.js, Go/Node.js, MySQL, Docker).
- **Escrow Monitoring & Salescore Platforms (PT Iki Karunia Indonesia):** Built real-time escrow audit tracking, automated dispute resolution flows, and loan disbursement pipelines with banking API integrations.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Vue.js, Solid.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, GSAP
- **Backend & APIs:** Node.js (Express/Fastify), Go (Golang), Laravel (PHP), RESTful APIs, API Gateway Design
- **Databases & Cache:** MySQL, PostgreSQL, Prisma ORM, Sequelize ORM, Redis
- **DevOps & Infrastructure:** Docker, Nginx / Nginx Proxy Manager, VPS Hosting, DNS & Domain Management, Git/GitHub, CI/CD
- **Leadership & Delivery:** Technical Architecture, Agile/Scrum, Jira, Team Leadership, Code Reviews, Client Management

EDUCATION

TELKOM UNIVERSITY | Associate Degree (A.Md.) in
Computer Science | GPA: 3.60 / 4.00

Bandung | 2018 – 2021

- **Academic Achievement:** Awarded Top 2 Best Students (Faculty of Applied Science, 2020/2021).
